

Fairway 4 Blend

FORMULATION

100% Turf-Type Perennial Ryegrass (4 elite varieties)

NOTABLE CHARACTERISTICS

- Dark green color
- Fine textured leaf blades
- Establishes very quickly
- Excellent disease resistance
- Excellent for overseeding or interseeding
- Use in full sun to partial shade

Fairway 4 Blend establishes quickly but includes more “dwarf-type” elite perennial ryegrasses so you don’t spend all of your free time mowing. Fairway 4 Blend includes only varieties that have excellent to very good ratings in NTEP* trials for disease ratings, genetic color, density and over-all turf quality. Fairway 4 Blend is an excellent blend for new lawns and also to interseed or overseed to thicken up an established lawn.

SEEDING RATE

New Lawn 5-7 lbs/1,000 sq. ft. or 300 lbs/A
Overseeding 3-4 lbs/sq. ft.

Sunlight needed	Full Sun-Light Shade
Soil Types	Loams to Clay
Maintenance	Medium-High
Fertility	Medium-High
Traffic	Very Good

NOTES ON TURF-TYPE PERENNIAL RYEGRASS:

Ryegrass varieties in Execu-Turf® Mixes and Blends are very dark green and durable. They provide the excellent look of a well maintained fairway on a golf course. Ryegrass varieties in Execu-Turf® are also selected for enhanced gray leaf spot resistance. Ryegrass exhibits quick germination and provides quick ground cover to hold the soil. Ryegrass often goes dormant after bluegrasses but before tall fescues. Ryegrass generally germinates in 7-10 days.
